

Project title

Team 01

BEN TROVATO and G.K.M. TOBIN

1 INTRODUCTION

Give an introduction to your project. 100 - 200 words.

2 LITERATURE REVIEW

Write your literature review of the project topic here. You need to cite relevant papers and online works [1]. For example, Strehl and Ghosh [2] provide an algorithm for combining multiple partitions. These citations will appear in the bibliography section at the end.

3 MILESTONES

Write identified milestones here (at least 4 per team member)

S. No.	Milestone	Member
	<i>Mid evaluation</i>	
1	Design GPU data structures for XYZ	Ben Travito
2	Implement min-cut on CPU	Tobin
	<i>Final evaluation</i>	
3	Implement min-cut on GPU	Travito
